Cabinet Manufacturing Made Affordable

CabMaster takes the complex task of manufacturing cabinets and delivers a simple yet comprehensive solution - resulting in a One Button Manufacturing Process. Available in three levels, CabMaster is your essential tool in cabinet design and manufacture.

Fast Quoting. Working from a standard library that is easily modified on the fly, CabMaster groups your selection in a list View and allows you to do simple modifications and pricing of individual cabinets.

Extra Items can be added to the list of cabinets to include costs that are not usually accounted for such as appliances, installation and plumbing.

The total price for your kitchen is then displayed at the top of the list view. Fast, Powerful, and Accurate quoting at the push of a button.

Construction Flexibility. You can specify the construction method of your cupboards on installation to suit industry standards. This one time setup ensures that the machining process is fast and accurate every time. You can even change the construction method for a particular job.

Item	Qty	Unit Price	Total Price
001 Edge 2 Edge	1	\$70.00	\$70.00
002 Flow	1	\$70.00	\$70.00
003 Flow Open2	1	\$70.00	\$70.00
004 Flow Open2	1	\$70.00	\$70.00
005 Flow Open2	1	\$70.00	\$70.00
006 Flow Open2	1	\$70.00	\$70.00
007 Flow Open2	1	\$70.00	\$70.00
008 Flow Open2	1	\$70.00	\$70.00
009 Flow Open2	1	\$70.00	\$70.00
010 Wall 22mm	1	\$70.00	\$70.00
011 Wall 22mm	1	\$70.00	\$70.00
012 Wall 22mm	1	\$70.00	\$70.00
013 Wall 22mm	1	\$70.00	\$70.00
014 Wall 22mm	1	\$70.00	\$70.00
015 Wall 22mm	1	\$70.00	\$70.00
016 Wall 22mm	1	\$70.00	\$70.00
017 Floor Drawn	1	\$70.00	\$70.00
018 Bench/Desk	1	\$70.00	\$70.00

- ❑ Easily select, modify and price cabinets.
- ❑ One button machining process.
- ❑ Affordable, efficient and reliable.
- ❑ Produce Quotes on the fly as you design.
- ❑ Save templates for fast design & production.

PLUS

Plan View. In addition to all the benefits of CabMaster, CabMaster Plus adds the ability to design your kitchen according to your model specification resulting in a plan view of your desired model.

Elevation View. You can view and alter your designs in Elevation view. Elevation view shows a side view of your design. It also displays dimensions for any cabinet on your design.

3D View. CabMaster Plus generates 3D photo realistic graphics giving you the edge in presentation. You have the choice of three 3D views - textured, hidden and wire frame making your presentation complete.

PRO

Set-up your own company design templates, construction methods, pricing models, part numbers, and even customize the cabinet range to create your own unique cabinet library. Once you have constructed the room layout, positioned the cabinets and appliances, you are minutes away from generating commercial reports and providing your production team with detailed cutting lists, assembly details, panel optimization reports and more.

Selecting and placing cabinets is simple and fast with a true drag and drop environment. Reporting is precise and available within minutes; reducing errors eliminating the need for manual reports.

- Quickly design your kitchen and show your customers the end result
- Photo realistic
- Elevation Views
- Increase your sales
- Save time and money

With CabMaster Pro you have complete control over door styles, material colours and finishes, walls colours etc. Import pictures and textures, and access a comprehensive range of 3D models containing appliances and other objects to enhance your drawing. CabMaster Pro also enables you to add lighting, shading and generates reflections off all your kitchen surfaces.
